

*Friends of Fletcher Moss Park and Parsonage Gardens*

## MAKE A WILDLIFE—FRIENDLY GARDEN

Come and learn and share your ideas on making your garden more friendly to wildlife. Our gardens are crucial to the well-being of wildlife – small insects, birds, bees, butterflies, frogs, hedgehogs, etc. Studies show that there is a dramatic decline in many species of insects and birds. We can do our best to help nature by designing and planting our gardens so as to look after and encourage wildlife...

*...and best of all—IT'S FUN AND INTERESTING!*

Parsonage Gardens

Didsbury M20 2RQ

Sunday April 22nd

2.00pm —4.00pm

This course is ideal for people and families who want to do something towards looking after our bird, insect and small mammal friends. The course is free but we will ask for a contribution towards materials used and taken away.

PLACES ARE LIMITED SO PLEASE CONTACT US TO BOOK
